Sifton's Graft Disapproved

Premier Announces Proposed
Substitution of Electoral
List is Withdrawn.

Peculiar Method of Rigging the
Manitoba Machine Was
Too Raw.

Legislation Required to Suit Cir-
cumstances of Carved
Constituencies.

From Our Own Correspondent.

Ottawa, June 21.—Mr. Earle has a
question on the order paper regarding
the export duty on salmon.

The Dominion Fire Insurance Com-
pany's incorporation bill, promoted by
Vancouver men, passed the committee
today. The capital was fixed at \$500,-
000.

It developed at the colonization com-
mittee that the Doukhobors owe the
government \$28,000.

The Bixley team sails Saturday from
Quebec. Fifteen members are from On-
tario, three from Quebec, one each from
New Brunswick, Nova Scotia, Manitoba
and British Columbia. Perry, of the
Sixth Regiment, was the last man to
get a place.

J. McDougall, auditor-general of
the Dominion, has applied for superannua-
tion. He forwarded his application
asking for superannuation to the min-
ister of finance today. The case was fore-
shadowed in his annual report.

Premier Laurier's announcement to
the House this afternoon that the govern-
ment had dropped Hon. Clifford
Sifton's proposed capture of Manitoba
by substituting electoral districts
lists for those prepared under the pro-
vincial law will probably have the ef-
fect of shortening the session by three
months, provided the Premier's prom-
ise is strictly adhered to, as the opposi-
tion were prepared to fight this mon-
strous proposition to the last ditch. It
was a bad call down for Mr. Sifton and
a big triumph for Mr. Borden and his
followers.

Even some of the government follow-
ers intimated to Sir Wilfrid Laurier
that legislation of this stripe was more
than they could swallow. But the ses-
sion is not yet over and Mr. Sifton may
yet be heard from.

Premier Laurier said the election law
legislation would be of a very light
character, and it would have reference
to the Representation Act as far as
New Brunswick was concerned, to re-
move all doubts as to the representa-
tion being fixed at thirteen members.
Some amendments would also be neces-
sary to clause 27 of the act, which
gives the governing council power to
fix the date of nominations in Alberta,
Saskatchewan, Manitoba, Ontario,
Quebec and the Yukon. Some of the con-
stituencies had been "carved" by the
redistribution act and legislation will
be needed to carry out the spirit of
these changes. Premier Laurier's use
of the word "carved," like his slip
"foreigner" a few days ago, was a term
of the tongue. Premier Laurier's an-
nouncement is regarded as an intima-
tion that the elections will not take
place this year.

WAITED IN VAIN.

Pesset, June 20 (Delayed in Trans-
mission). The Russian force stationed
at Slavianskaya, near the Korean
frontier, has returned from that place
after having waited two months for
the Japanese advance.

REPUBLICAN CAMPAIGN.

Noted Party Orators Agree to Stump
the Country.

Chicago, June 21.—Speaker Cannon is
to be the star speaker at the Republi-
can congressional campaign. This
arrangement was agreed upon tonight at
the meeting of the majority members of
the executive committee of the congres-
sional club, which was held at the Chi-
cago Club. Chairman Bailew, who has
the opportunity to get the views of his
colleagues on the congressional commit-
tee who are in attendance at this con-
vention. Speaker Cannon responded to
the invitation to be the star speaker at
the convention, which was held at the
club, last night. He said he was a rep-
resentative of Illinois, Iowa, Overstreet,
Indiana; Lousenslager, of New Jersey;
Mann, of Illinois, and one or two others.
It was decided that the congressional
campaign should open with a rush as
soon as the Democratic national con-
vention has passed into history. The
committee will open headquarters in
New York and Chicago and maintain
literature distribution bureaus in Wash-
ington.

A JAPANESE ATTACK.

Report That Cavalry Attacked Russian
Outposts at Liaoyang Sunday.

New Chwang, June 20.—(Delayed in
Transmission).—According to an Ameri-
can missionary, who claims to have re-
ceived information from a native source,
a force of Japanese cavalry attacked
the Russian outposts at Liaoyang last
Saturday. According to the same au-
thority, the fighting continued on Sun-
day. The party left Los Angeles
a week ago Thursday. The travelers
hope to reach Portland in about
twenty days and will remain there only
a few hours before proceeding to Se-
attle. They met with one mishap which
delayed them thirty-six hours.

General Staff's Latest Reports

Japanese Made Forward Move-
ment at Port Arthur on

A Retrograde Movement Made
By the Enemy About Wing-
fancheng.

St. Petersburg, June 21.—Lieut. Gen-
eral Zillinsky, chief of staff to Viceroy
Alexieff, has sent the following tele-
gram to the minister of war, under
date of June 19: "According to infor-
mation received from Port Arthur June
14, three Japanese battalions pushed
forward across the Shaohindan moun-
tains toward Lounman. Two detach-
ments of Captain Loubinsky's rifles and
a company of frontier guards stopped
their advance. The enemy's torpedo
boats bombarded the semaphore station
but they retired on the approach of
the cruiser Novik and our torpedo boats,
which opened fire on them. When, on
June 13, our rifles drove the Japanese
from two positions east of the Shaoh-
indan mountains, Lieut. Bietz and a
rifleman were killed; Lieut. Zrodinsky
and four riflemen were wounded. Lieut.
Zrodinsky has since died."

Lieut. General Shakhoff, in command
of the first Siberian army corps, has
sent the following despatch to the gen-
eral staff under date of June 19: "Since
June 16 indications have begun to mani-
fest themselves that the Japanese are
preparing to advance by three roads
to the northwest."

"On the first of these roads is a small
detachment of the advance guard, which
has approached from Vandapouza; on
the second road the advance guard has
occupied a mountainous defile between
Nandzabek and Pantchah. On the third
road the advance guard of the enemy
has approached the village of Hing-
fancheng, which has been occupied by
the Japanese."

"The main body, consisting of five
regiments of infantry, with cavalry and
artillery, has taken up a position on
the Hingfancheng ridge and is waiting
for the advance guard to move on."

"During the last few days our ad-
vance troops held these roads against
the enemy and lost about ten men killed,
wounded and prisoners taken. Lieut.
Nasiroff, who was wounded, and three
wounded Cossacks were taken prisoners."

"On June 17 the only patrols observed
were at Seluchan. They retired rapidly
on the approach of our advance guard
and exchanged rifle shots, as the result
of which two of our soldiers were
wounded."

"Saimatzek has been evacuated by the
Japanese since June 10, when one of
the Japanese detachments withdrew to-
wards Fengwangcheng. Rain has fallen
uninterruptedly since last night."

Under date of June 20 Vice-Admiral
Skrydloff sends the following message
to the Emperor: "The Japanese have
returned to Vladivostok without
losing any men or sustaining any dam-
age."

"The Emperor has received the follow-
ing despatch from General Kuropatkin:
"The enemy in the direction of Saimatzek
and Fengwangcheng have not only
stopped but have made a retrograde
movement. They have evacuated sev-
eral points towards the north of Feng-
wangcheng, which until recently they
occupied. The movement of Japanese
troops towards the Dalme defile has
been stopped, but a rather important
movement of the Japanese forces has
been discovered in the direction of Sin-
yu and Haideng or Sinyun and
Tashichiao."

A JAPANESE ATTACK.

Report That Cavalry Attacked Russian
Outposts at Liaoyang Sunday.

New Chwang, June 20.—(Delayed in
Transmission).—According to an Ameri-
can missionary, who claims to have re-
ceived information from a native source,
a force of Japanese cavalry attacked
the Russian outposts at Liaoyang last
Saturday. According to the same au-
thority, the fighting continued on Sun-
day. The party left Los Angeles
a week ago Thursday. The travelers
hope to reach Portland in about
twenty days and will remain there only
a few hours before proceeding to Se-
attle. They met with one mishap which
delayed them thirty-six hours.

U. S. EUROPEAN SQUADRON.

Gibraltar, June 21.—The American
battleship squadron sails today for
Tientsin, Greece, the orders to go to
Tangier having been countermanded.

THE CZAR'S GIFT.

New York, June 21.—The gift of the
Emperor of Russia to the New York
stock exchange of a beautiful Russian
cane, was presented to the officers of
the exchange by the consul-general,
representing Count Cassini, the Russian
ambassador, today.

STRANGE DISAPPEARANCE.

Prominent American Missing on Trans-
Atlantic Voyage.

New York, June 21.—A cable despatch
received in this city announced that
Lieut. J. Loomis, brother of Assistant
United States Secretary of State Loomis,
had disappeared from the steamship
Kaiser Wilhelm Second, in which he
sailed for Europe on June 14. Mr.
Loomis was en route to Abyssinia with
a view to securing commercial conces-
sions. Mr. Loomis disappeared during
the voyage.

HAREWOOD MINE FINALLY ABANDONED

Friction With Men Decides Com-
pany to Close Unremuner-
ative Works.

From Our Own Correspondent.

Nanaimo, June 21.—For the third,
and probably the last, time the Hare-
wood mine closed down today. Early
in the seventies the property owned
by the Harewood Mining Company was
purchased from the Bank of British
Columbia by the New Vancouver
Company and allowed to lie idle for
many years. The company recently
spent some thousands in building a rail-
way and developing the property, but
eventually closed it. When the West-
ern Fuel Company took over the colliery
they decided to make another effort.
The coal proved very dirty and for
months the mine was kept open be-
tween bare payment expenses and a
deficit. Some trouble with the men aris-
ing from dirt in the coal, caused a
stoppage of operations today, and Presi-
dent Howard immediately gave orders
to take out the rails and remove the
machinery and abandon the mine per-
manently. A hundred men are affected.

CHANGE NAME OF UNIVERSITY.

Washington, June 21.—The secretary
of the interior has approved the ap-
plication of the board of trustees of the
Columbia University of this city to
change the name of that institution to
the George Washington University.

FOUR DROWN IN TEAL LAKE.

Marquette, Mich., June 21.—Mrs. John
Orie, Gordon Pipe, Florence Crane
and Roy Mitchell, all of Negaunee, were
drowned today in Teal lake, a squall
capsizing the boat.

BOBRIKOFF'S OBSEQUIES.

St. Petersburg, June 21.—The body of
General Bobrikoff, the late governor-gen-
eral of Finland, which arrived here to-
day from Helsinki, was received with
full military honors and was interred
at the family vault at Nergiove, near
St. Petersburg. The Emperor was pres-
ent but the Empress did not attend the
burial; she intended to accompany the
Emperor. A long-expected event in
the imperial family is understood to be
imminent.

CARDINAL DENIES FRICTION.

Baltimore, June 21.—In view of the
contradictory statements that have been
published as to the attitude of Cardinal
Gibbons and the American archbish-
ops in the matter of Pope Pius' recent
letter on the subject of church music,
restoring the Gregorian chant, the car-
dinal today made the following state-
ment to the Associated Press: "The
cardinal wrote to the holy father prom-
ising to carry out, as far as practicable,
the judgments and particular letter of
the Pope on the subject of sacred mu-
sic. Today the cardinal received a re-
ply from the holy father, in which his
holiness warmly commends and ap-
preciates the letter of his eminence and
archbishop. Alleged interviews and ob-
servances ascribed to the cardinal
touching on the holy father's letter on
sacred music are devoid of foundation."

VESSEL OWNERS BRING SUIT.

Tacoma, June 21.—Deniston & Co.,
of Glasgow, owners of the British ship
Ventura, today brought suit in the Fed-
eral court against Moore & Co., of
San Francisco, for \$17,500 damages.
Losses through delays in loading the
Ventura by the respondent are alleged.
The suit is in the nature of a counter
claim, in answer to libel proceedings be-
gun in Seattle several days ago against
the vessel.

The Inquest On Slocum Disaster

Evidence of Members of Crew
Shows Fire Drill Was
Unknown.

Scores of Bodies Brought to the
Surface Yesterday by Fir-
ing Dynamite.

New York, June 21.—Evidence of a
startling nature, which doubtless will
have an important bearing on the ulti-
mate result of the coroner's inquiry into
the General Slocum disaster, was forth-
coming at the inquest today. Perhaps
the most unexpected incident was the
continued refusal to answer questions
of Henry Lundberg, an United States
stevedore, who was supposed to have
inspected the life preservers and hull of
the ill-fated steamer. His refusal
was based on the ground that an an-
swer might tend to incriminate him, and
he acted on the advice of his counsel.
The coroner committed Lundberg to the
house of detention, but later accepted
\$500 for his appearance at the hearing
tomorrow.

Second Pilot Weaver, of the Slocum,
testified that he had prepared the fire
drill for that boat, and Mr. Garvan in-
troduced evidence to show that the price
was 40 cents a foot, less 60 per cent,
or 16 cents per foot net.

"Don't you know that you can't buy
good hose for less than a dollar or a
dollar and a half a foot?"

"I don't know anything about the
price of hose," responded Weaver.
Weaver also declared that there had
been no fire drill on the Slocum this
year.

Daniel O'Neill, who, according to his
sworn statement, had never worked on a
boat till he was hired on the Slocum a
short time ago, admitted that he be-
came frightened after the fire had gained
great headway and had jumped into
a rowboat filled with people from the
Slocum, cupping it. Asked if he had
saved anyone, he said there others there
doing that and he was not an expert
swimmer. He swam ashore himself,
however.

O'Neill declared he never saw a fire
(Continued on Page Two.)

AN INSPECTOR UNDER DISCUSSION

U. S. Cabinet Considers the Case
of the Burnt New York Ex-
cursion Boat.

Washington, June 21.—Provisionally
all of the time of the session of the cabi-
net today was devoted to the consid-
eration of the subject of steamboat in-
spection brought to the attention of the
body by Secretary Cortelyou. The mat-
ter under discussion was incidental to
the General Slocum disaster and to the
rigid inquiry into it which has been or-
dered by Secretary Cortelyou in view
of the charges that have been made of
lack of discipline on the Slocum and
insufficient lifesaving equipment and
unsafe fittings on the Slocum. It was
decided that the best expert talent ob-
tainable should be called into service,
and at the suggestion of Secretary Cor-
telyou it was arranged that an army
and a naval officer should be attached
to the board as experts. Command-
er Cameron McK. Winslow, attached to
the navigation bureau, was selected as
the naval expert. The army probab-
ly will be represented by Major Oscar F.
Lenz, of the quartermaster's depart-
ment.

General Strossel of Opinion that
the Correspondents Must
Be Crazy.

St. Petersburg, June 21.—Ac-
cording to an unconfirmed re-
port the Russian battleships Bet-
vian and Poludni went out of
Port Arthur June 18th and re-
turned to port the same day.

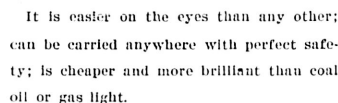

Indianapolis, Ind., June 21.—The
News received from its special war cor-
respondent who effected an entrance into
Port Arthur, where he was im-
prisoned five days before he was or-
dered from the fortress, a special cable-
gram dated Chefoo, June 21st, in which
Fuller gave his experiences as follows:
"After being rowed across from the
Mianou islands in an open boat by two
Chinamen, I landed at Louisa bay. The
bay is near Port Arthur and is sepa-
rated from it by a range of hills. The
bay was occupied by a Russian fleet
of four torpedo boats, two destroyers
and two cruisers. I landed at daybreak
on the morning of June 10th without
detection."

"With the full coming of the day I
could see that every hill top near the
shore was alive with soldiers busily
engaged in strengthening the already
formidable fortifications, which occu-
pied every point of vantage. It looked
at first as though it would be impos-
sible to pass through the lines. I
made my way over the hills toward
Port Arthur, but keeping down in the
narrow valleys, which were free of
soldiers, I gradually made my way into
the interior of the peninsula. In this
way, after a day and night of effort, I
succeeded in reaching Port Arthur. The
hazard of my position became so ob-
vious that the same day, Saturday,
June 11th, I set out on my return to
Louisa bay. I presently came in sight
of a large body of Russian infantry,
when I took refuge in a Chinese vil-
lage, where I found a hiding place un-
til all the danger was over."

"I had not proceeded far from the
village when I came upon a small
party of sappers. In order to avoid
them I made a dash up the hill only
to run into another regiment engaged
in digging entrenchments. Instantly I
was surrounded. There was no possi-
bility of escape. The officers in com-
mand detailed a guard to take me to
Pigeon bay. There I was searched. I
was stripped to the skin and all my
clothes were subjected to the closest
scrutiny. My money was taken and
all the papers in my possession were
taken. Thereupon I was blindfolded
and marched to Port Arthur. The
route taken was over the military zone,
which has recently been constructed. In
spite of the bandage over my eyes I
was able to note that the road is of ad-
mirable construction along which
the artillery could move easily and
rapidly."

Port Arthur was full of life and
activity, quite out of keeping with the
stories of distress that had reached
Chefoo. Indeed, nothing of this sort
was observed. There seemed to be an
abundance of supplies, and fresh sup-
plies were coming in from Chinese
sources. The Japanese blockade has
not been effective. The harbor entrance
was taken was over the military zone,
which has recently been constructed. In
spite of the bandage over my eyes I
was able to note that the road is of ad-
mirable construction along which
the artillery could move easily and
rapidly."

THE LATE JOHN FANNIN, CURATOR.

In the language of the new cult of the Philistine the late curator of the Provincial Museum was a man who did things. Out of a little collection of stuffed birds and mammals made on the shores of Burrard Inlet, where he practiced amateur taxidermy in conjunction with the gentle art of St. Crispin, has been evolved the splendid exposition of our flora and fauna found over the bay in the Government Buildings. Now that John Fannin has passed away and left to the care of others what he prized most dearly on earth, we have but to apply the oft-repeated epitaph of St. Paul's in connection with his noted designer. The Museum is indeed a monument to his memory as lasting as brick and stone.

It is scarcely necessary to speak of the deceased, especially in Victoria, where his figure was a very familiar one. The man and his work were well known throughout the Province, and in certain circles far beyond it. There was not another civil servant so popular or more highly respected than "Jack Fannin," by which name his friends knew and liked him best. He was quiet and unassuming; yet like many men of his stamp interesting and lovable when known more intimately. Practically self taught, he acquired a knowledge of natural history and taxidermy, which was surprising. His aptitude in these respects amounted almost to genius. In addition to his skill as curator, he possessed a very fine literary instinct, and wrote with vigor and finish, though of late years he was somewhat loathe to put pen to paper, having become so deeply absorbed in his Museum work. For a year or more past his health was very poor, and he was finally compelled very much against his inclinations to relinquish work altogether. To a friend he said almost pathetically: "I had one or two things especially to do. I would like to have stayed just one year longer over the Bay."

In this connection, it may be stated that the Natural History Society, of which he was a promoter and a charter member, proposes to start a Fannin Memorial for the purpose not only of perpetuating his memory in some special way, but of doing some useful work of an educational character with which his name will be associated. Although a large oil portrait for the Museum has been suggested, and the suggestion will probably be carried out, the special form of memorial recommended is that of a series of prizes to be given annually for competition in the public schools on subjects of natural history, and possibly local history of a reminiscent nature. This is a most opportune time to take up the matter, and it is understood that circular letters in that connection will be issued at once. We feel certain that a great many friends of the deceased will be only too pleased to have the opportunity to subscribe to a fund for the purpose.

LOGGERS VERSUS LUMBERMEN.

There is no doubt about it that the loggers of the coast of British Columbia are in a very bad way. It is understood that they propose to wait on the Provincial Government for the purpose of obtaining relief in their difficulties. For some months the lumber industry has been depressed owing to overproduction, both in British Columbia and on Puget Sound. The shingle mills are practically out of business, and there is talk of several of the largest sawmills in the Province closing down until conditions improve. Under such circumstances the loggers cannot get a market for their logs locally, except at very low prices, and not being capitalists, as a rule, to close up their logging camps and be subject to enforced idleness and depreciation of plant would be a great hardship, indeed. In a petition to the Government they propose that the embargo on logs for export be taken off, so that they be allowed to sell their logs on the other side of the line.

The special conditions which affect the lumber industry at the present time are as follows: To start with there is a row on with the C. P. R. as to freights; there is overproduction; and there is the unfair competition from the lumbermen of the Sound in the Northwest markets to contend with. With a surplus of product on hand, the United States millmen are "dumping." Some see in the concerted action of the British Columbia millmen in closing down a "hold up" on the C. P. R., and the Dominion and Provincial Governments, with a view to obtaining special concessions all round. The millmen, on the other hand, claim that their grievances are genuine, and that they are forced to the action they are taking. It would probably require a Royal Commission to arrive at the true inwardness of the case. There is no doubt, however, that the situation is full of peril to the independent loggers, who are working on special licenses. They have only one market for their timber,

and the Mill Owners' Association set the price, and, naturally, they set it to suit themselves, irrespective of other interests. Under present circumstances they say they must have cheap logs. They, it is true, have their own limits, but it is claimed they cannot cut their own logs for the prices they are offering to the loggers. It is possible that their object is to make conditions "bite" a little hard for the loggers and others doing business with them, in order that the interests affected will back them up in their efforts to secure a fair measure of protection in the Northwest and Manitoba markets. These and other views of the case have been current as the explanations of the present situation, which is anything but satisfactory. We believe that the Government would do well to look carefully into the timber laws. It is possible that a solution to some extent could be found in order to balance more evenly the rights and interests of loggers and millmen.

It would not be wise, however, to do away with the embargo on export as a principle of promoting home industry. As a temporary expedient to relieve the loggers in disposing of their timber on hand it might be justifiable; but even then we do not see how the loggers can sell their logs in a market which is already overcrowded. If we are to believe the Sound papers it is the general intention of millmen there to close down their mills until the stock of surplus lumber is disposed of.

Of course, the real difficulty in the situation is the refusal of the Dominion Government to afford an adequate measure of protection in the Northwest, or at the very least to take steps to prevent the "dumping" going on on the part of the United States lumbermen.

THE FISHERIES DISPUTE.

The assumption that those who desire to have some special recognition on the part of the Dominion of the peculiar local conditions which exist in regard to fisheries and certain other matters of great importance to this Province are "an arrogant lot" may be as politically convenient as it is audacious; but it may yet transpire that arrogance of that particular kind will be accepted as meritorious in the estimation of a great body of the electorate. Of course, with a number of newspapers blind to the rights of the Province, and for political purposes taking the side of the Dominion Government against their enforcement, it may take longer than otherwise to succeed. Nevertheless the day will come when the people will open their eyes to the anomalous and one-sided financial relations which now exist, and have existed for some years past.

But to the fisheries, a confused state of mind as to the present status of the case is probably responsible for some of the statements made in reply to the Colonist's contentions of yesterday. There is no question of handing over rights, which under the constitution belong to the Dominion to the Province. Under the B. N. A. Act neither the Dominion nor the Provinces have the power to delegate any rights specially apportioned to them. The case is an entirely different one. A few years ago stated questions as to jurisdiction in the matter of inshore and inland fisheries were submitted to the Judicial Committee of the Privy Council. The decision, it was generally admitted, was not a very clear one, and left some phases of the question still rather in doubt. What, however, was clearly shown was that, while the Dominion had the exclusive right to make regulations, the Provinces and the Dominion had concurrent jurisdiction. That is to say, briefly, as soon as the regulations were promulgated the Province had the right, as well as the Dominion, to go ahead and issue licenses and assume control within their assigned territorial limits. We believe we are stating the case fairly accurately. As soon as the decision was known the Dominion Government recognized the possibility of conflict in giving it effect, and almost immediately entered into negotiations with the Provinces with a view to arriving at a convention under the terms of which jurisdiction and control would be mutually defined. The Province of British Columbia passed a fisheries act, but at the request of the Department of Marine and Fisheries, allowed it to remain in abeyance until a settlement could be arrived at. There was no question of handing over rights that belonged exclusively to the Dominion to the Province. The Government of British Columbia always recognized the exclusive right of the Dominion Government to make regulations. There were other questions of jurisdiction remaining unsettled, for instance, the rights of the Provinces in regard to territorial waters, and it was presumably for the purpose of making further references to the Privy Council unnecessary that the Dominion Government desired to arrive, by convention, at a mutual understanding in regard to the whole subject. The question now is whether, so far as the Province of British Columbia is concerned, it shall hand over rights it possesses under the constitution to the Dominion or exercise control on its own account so far as its known jurisdiction will permit. It has undoubtedly the right to put the Act passed at a recent session into force, or some other Act of a similar nature. The other Provinces apparently wish to hand over the control to the Dominion, presumably for a consideration. British Columbia, on account of local considerations and the distance from the seat of administration, desires to retain control, and to enter into a fair, general working arrangement with the Dominion, which will include the operation of the hatcheries, with, of course, compensation for the excess of revenue contributed in past years. It is the intention, by the way, to fund any monies received by way of compensation for the exclusive purpose of fisheries development. As intimated in yesterday's issue, the will of the other Provinces, which are unwilling to undertake the responsibility of control, is likely to prevail, notwithstanding that the conditions in regard to inland fisheries are totally different to those in any other part of the Dominion, and are not amenable to uniformity of methods employed elsewhere.

The statement that the administration of the fisheries instead of being a source of profit to the Dominion is an annual loss is true of Canada as a whole, that

is from the simple point of revenue and expenditure, but it is not true so far as British Columbia is concerned. On the contrary since 1887, taking into account capital expenditure as well, which should not be charged to any particular year, Canada is ahead several hundred thousand dollars. That just makes the difference between the case of the Province of British Columbia and the other Provinces, and yet we are accused of "arrogance" for humbly calling attention to the fact.

It is noted in the Kootenay Mail, Revelstoke, that W. H. Gallihier, M. P., whose photograph is reproduced for the benefit of readers in that constituency, was born and raised in Bruce County, Ont. So also was Duncan Ross, who is running for the Commons in the adjoining county of Yale. As a large part of the Northwest of Canada and the United States, is populated from Bruce, and there is a large number of Bruceites in Parliament, we appeal to the electors if this is not clearly a case of too much Bruce.

We see a great many criticisms in the press about the Government method of dealing with the oil and petroleum lands in East Kootenay. We have not seen any person with courage enough to say how otherwise they ought to have been dealt with. It is so easy to say things when you have not the responsibility of putting your own views into effect. We think it the duty of those who object to show the Government the better way.

The "in quoque" argument is a popular one with those who have no other recourse in a discussion of public matters. We observe that when the attitude of the Dominion Government against lumber and other matters seriously affecting the interests of British Columbia are referred to, our Liberal contemporaries fall back on something the Conservatives did while in power, as though it were impossible for the administration at Ottawa to get away from the example of the Tories even in their shortcomings. If necessary these newspapers will go back for precedents to the time of the Pacific scandal, and in a tight place will even rummage among the records of the old Family Compact.

The Boundary Creek Times (Liberal), edited by Duncan Ross, the Liberal candidate in Yale, has evidently some lingering hopes that the situation will yet dawn upon the mind of the Minister of Finance at Ottawa. The Colonist did not, however, expect to get such straight up and down support on the lumber question from such a quarter. The Times says:

"In his brilliant budget speech Mr. Fielding announced a special tariff on goods dumped or slaughtered in Canada. The duty will be the difference between the sacrifice price and the market value of the goods. The British Columbia will receive the benefit of this special duty. It is a well-known fact that Puget Sound lumber is dumped into the Northwest and sold at sacrifice prices in order to keep the trade from the B. C. lumbermen. If the Northwest settlers received the benefit of the slaughter prices, something could be said in favor of the practice, but unfortunately the lumber is sold to a retail lumberman's trust and they do not reduce the price to the settler, they simply pocket the increased profits. The result is that the market is lost to our own lumbermen, while the settler gets no cheaper lumber."

"Surely this is an instance where Mr. Fielding's special tariff could be very effectively applied."

THE BRITISH COLONIST

A. DE COSMOS, Editor.

Indian Fight. On Sunday afternoon the town was turned into a high tide of excitement by hearing of a fight between the Indians of the Skeena and the Skeena Indians on the west side of the harbor and the Skeena Indians on the east side. After shooting for upwards of half an hour, the fight ceased. One Skeena was shot in the leg, and a woman in the side. One Skeena Indian was struck by a ball in the head.

Fires—Cannot something be done towards organizing an efficient fire department? The influence of the nature of our houses at this season, calls for extra vigilance, and renders it necessary that we should be prepared to prevent a general conflagration, which at any moment is likely to occur.

Aborigines. The Aborigines Society will certainly confer with the Society for the Preservation of the Skeena Indians, in the event of the Indian fight here last Sunday, and the result of the conference will be to request the Colonial Secretary to aid in modifying the masterly Indian policy of the government.

Accident. On Monday a horse belonging to the Pioneer Soda factory, Humboldt street, took fright, running away with the wagon, by which Mr. A. Phillips was thrown out and severely injured, besides having one of his legs broken.

Reward. One coin will be paid for the autograph of the candidate to represent the Naamika constituency of the PHINEAS BARNUM.

Mr. Alston, an English barrister, who has recently arrived from England, was yesterday admitted in the Supreme Court.

It costs about \$40,000 a year to support the military branch of the service in British Columbia. Whence is the revenue to be derived?

Eleven men who have thoroughly prospected the San Juan diggings pronounce them a failure.

Mr. Morris, contractor, promises that the James Bay bridge will be available for travel within a fortnight.

Professor Dawson, in his report on the Northwest, says once the route is completed to the River from Canada, there is navigable water to the base of the Rocky Mountains. From there to Fraser's river the distance is short. Very great interest appears to be manifested in the matter of British Columbia and the Northwest.

LETTERS TO THE EDITOR.

THE SEASIDE DRIVE.

Sir—Has our Mayor and Council overlooked the fact that the question of the alleged dumping of the public domain into the foresters of the Province is still in the statu quo? According to a report of the Hon. Mr. Justice, the legality of the moving of forces in that neighborhood should be stated in the courts. Are the Mayor and Council afraid to maintain what are claimed to be the city's rights in the premises, or is it another case, only too common in Victoria, of official ineptness and disinclination to do their obvious duty? Mr. Mayor, it is "up to you."

RATEPAYER.

THE TROUBLES IN FINLAND.

Portland Oregonian.
 One can hardly tell what the troubles in Finland may signify or portend. In all

IT'S YOUR LIVER AND STOMACH

If the morning finds you crotchety; inclined to quarrel with your best friend; dull pains in your head; nasty taste in your mouth and with a furred tongue, nine times out of ten blame your liver and stomach for it all. It is not your disposition; it's biliousness. Take Shotbolt's Antibilious Pills—two at bedtime and the result will surprise you. Little indulgences at the table producing a disorder of both liver and stomach are promptly corrected by these pills which are small and easy to take, and life is made brighter in consequence. 25 cents a box.

Bring up your physician's prescriptions and family recipes. We use ONLY PURE DRUGS, imported direct. Three qualified druggists in attendance. CAUTION—SURE—QUICK.

Mail or phone orders.

most every portion of the Russian dominions there is possibility of outbreak which may lead to revolution. Finland is a country of 100,000 square miles, containing 2,100,000 people. Once a free and independent state, it was conquered in the twelfth century by Sweden, and in the early part of the nineteenth century fell under the dominion of Russia. About 80 per cent of the population is of Finnish stock, allied ethnically to the Hungarians and Turks. The presence of these people on the Baltic represents one of the great early migrations of the Finno-Altaic family, antedating all historical records. The beginning of known history finds them in their present seats, and their origin is described by recognized racial affinities, and especially by the tests of language. In the case of the Finns, as of so many more, philological science becomes one of the surest bases of history. Finland is feudal, or land of marshes—a translation into Teutonic form of an ancient equivalent in the language of the invading races. Finland never has been satisfied with the dominion of Russia, and in particular during recent years has chafed under it. For Russian regulations have become extremely rigorous. Effort has been made to supersede the native language, both in administration and in the schools, and to place under disabilities the exercise of religious rights of the people, who are mostly Lutherans. Russia therefore never liked, is now hated intensely. Finland may be regarded as the victim of a revolution within the Russian empire—which has long seemed to be long past due.

Yet Finland is so situated as to be very close to the attack of Russia, and will be unable to find means of defence, much less of aggression. It is but a little distance from St. Petersburg, and the capital of Russia, on the Gulf of Finland, is commanded by Russian forts and fleet. In conflict with Russian soldiery, resistance of the people would probably be of no avail. They are brave and spirited, but without organization for war.

THEIR WEIGHT IN GOLD.

(Minneapolis Journal.)

The Asiatics have a curious religious ceremony called "weighing against gold." At Miraj, in India, the other day, Lady Girgibai, the Dowager Rani of the house of Marajpuri, had herself weighed against gold. The gold was prescribed by the Shastras or Hindu scriptures. The gold placed in the scales against her ladyship was afterwards distributed among Brahmin priests and the poor. This would be a hard test for some of the fat American millionaires, and might elicit a groan even from Russell Sage, thin as he is.

EAST KOOTENAY COAL AND OIL LANDS.

The News-Advertiser.

The situation, briefly stated, is this: As soon as it was known that a preceding administration had neglected to properly reserve these lands, the news of the rights in the lands was made public. These were applied for by hundreds and there is not much doubt that some of the land has been staked more than once. In many instances, one claim overlaps another. A large proportion of these applications for licenses have been made by persons who have no intention of developing the lands, but expect to sell any licenses they may acquire at a profit. Under these circumstances the government finds it impossible to grant the rights of the numerous applicants. Nor, if it were attempted to do that, is there any probability that it would give satisfaction to the applicants. It is a recommendation to the government to appoint a commission to investigate on real applications would be a very tedious operation, very costly to the province, and bound to be unsatisfactory unless appeals from the commission's decision were admitted. To grant that would make the affair interminable.

The course taken by the government will place all contending applicants in exactly the same position as is occupied by every locator of a mining claim to which there is a rival claimant. No one suggests that the government in such a case should take upon itself to adjust such a dispute or interfere in any manner with its adjustment by the courts, for will any respectable person, who has no regard for the public interests, see any ground for objection to the prudent course which the government has taken in respect to rival claims for locations in a case like this?

There will possibly be other critics who will urge that the government should have compelled contending claimants to have their dispute adjudicated by a judge of the County Court, under the provisions of section 9 of the act before a license was issued to either of them. But under the peculiar circumstances involved in the matter, this would have been a very unsatisfactory course. There is nothing in the law, as far as we are aware, which indicates that the legislature should take course in contemplation and it certainly would only augment the difficulties and increase the delays in reaching a settlement in this case. Results like the interest of either the province or the licensee. Now the applicants will all be on an equal footing to assert their claims as locators of mineral claims are under the law.

There may be other people who, for lack of any other possible objection to the government's course, may insist that it has no right to vary the conditions under which other prospecting licenses have been issued. But section 12 clearly states that while it shall be lawful to grant licenses to prospect over reserved lands, "such licenses shall be subject to such restrictions, conditions and regulations as may be imposed by the lieutenant-governor-in-council." And certainly the present is a case in which special conditions should be applied, if ever there was one, in the public interest.

That the government should require every person to whom a license is granted to waive any claim or demand against the government for any cause arising out of the issuance of such license, is a course so clearly dictated by the most ordinary considerations of prudence and regard for the general welfare of the province, that any criticism of it will find no public support. The government has had two objects in view in the action it has taken—to give the reasonable limits for the reasonable fulfillment of their request to the applicants for licenses and at the same time to conserve the provincial interests which are entrusted to it. The more the matter is considered, the stronger we are convinced, will be the public approval of the course which the government has taken.

RESIDUITIES.

A man in North Carolina, who was saved from conviction for horse stealing by the powerful plea of his lawyer, after his acquittal by the jury was asked by the lawyer, "How, did you, did you, did you steal that horse, didn't you?" "Now, look a-hear, judge," was the reply, "I allers did think I stole that horse, but since I was acquitted by your speech to the jury, I feel degraded if I ain't got my doubts about it."

Dickens used to tell a story of his biographer, John Forster. Forster had a very devoted and skillful servant, Henry, who was always most correct in everything he did. The more Henry was praised one night, when Forster was entertaining several writers at dinner, to see the scrupulous Henry make error after error. He upset a plate of soup, and Forster ut-

tered a cry of alarm. He forgot to serve the sauce for the fish, and his master said, "Why, Henry?" Altogether he made the excellent dinner seem a slovenly and poor repast. When, at the end, he had served the port and the wine, on the table, Henry leaned over Forster's chair, and said, in a tremulous voice: "Please, sir, can you spare me now? My house has been on fire for the last two hours."

Noni Webster was, as might be supposed, a stickler for good English, and great reprover of his wife's misuse of the language. On one occasion Webster happened to be alone in the dining room with their very pretty household maid, and, being susceptible to such charms, put his arms around her and kissed her squarely on the mouth. Just at this moment Mrs. Webster entered the room, gasped, stood agog, and in a tone of horror exclaimed: "Why! Noni, I am surprised!" Whereupon Mr. Webster, coolly and calmly, but with every evidence of disgust, turned upon her. "How many times must I correct you on the use of simple words?" he remarked; "you mean, madam, that you are astonished. I, madam, I am the one that is surprised."

ONLY A DEMONSTRATION.

(A Semi-Official Telegram.)

"Reuter wires from St. Petersburg that a so-called telegram from Mukden states that the Russian defence of Kin-chau was only demonstrative. The occupation of the position by the Japanese, at great cost to themselves, does not alter the situation."—Daily Press.

Please may this glad assurance known, We're well and fat and hearty; In fact, you might inform the Throne We're quite a jolly party.

The enemy employs his brain With frantic operations; But each in turn we render vain By sturdy demonstrations.

We've fallen back from place to place— Not that we have been driven— We want to keep a moving base— For that alone we've striven. But if our foe gains too near, We note his deviations. And show him he creates no fear By dint of demonstrations.

The little chap we're out to fight Devises schemes extensive; He presses hard from left to right, But finds it most expensive. For, see you, when his "Banzai" wild Denotes his exultation, His victory could be but styled As over a demonstration.

Our plans are working very well, We're not in any hurry. Tomorrow's move we cannot tell; But don't begin to worry. We've heard reports about "defeat," Also "evacuation"; Please bear in mind that each retreat Is but a demonstration.

We've suffered some slight sacrifice Of guns, a few in number; Still, speed we want at any price— Our movements they would cumber. What jealousy we must excite In European nations, As they observe our running fight And airtful demonstrations!

A perception of the comic sense to be a balance-wheel in our metaphysical structure. It appears to be an essential element in a fine character.—Emerson.

Some people are working very well, We're not in any hurry. Tomorrow's move we cannot tell; But don't begin to worry. We've heard reports about "defeat," Also "evacuation"; Please bear in mind that each retreat Is but a demonstration.

Local News.

Wedding Announcement.—The mar-
riage between Miss May Dunsmuir and
Lieut. Arthur Bromley, which was in-
definitely postponed owing to the illness
of her mother, will take place on Fri-
day, 24th inst., at the same time.

New Gravel Walk.—What will prove
a considerable convenience to pedes-
trians is the new gravel walk on the
east side of the James Bay causeway,
just determined on by the city council.
It will be surfaced with cinders. Work
on the same will be commenced at once.

Craigflower Road Again.—In the Pol-
ice court this morning Henry Sheppard,
Thomas Aske and W. Walker were
charged by Rev. G. H. Ellison with hav-
ing broken down a fence placed on
Craigflower road on a portion of land
to which Mr. Ellison lays claim. The
case was remanded.

Land Registry Act.—S. Y. Wootton,
registrar-general, gives notice that it is
his intention at the expiration of one
month from date, to issue a duplicate
of the certificate of title to lot 6,757
and part of lot 684, Victoria city, to
the Woman's Christian Temperance Un-
ion of British Columbia.

Removing Shacks.—At the special
meeting of the council held yesterday
afternoon a resolution was passed, on
motion of Ald. Vincent, ordering the
removal of another old building, con-
demned by the sanitary officer, and
situated on block 1,870 and block 62,
corner of Michigan and Oswego streets.

Wm. Bell Dead.—Wm. Bell, an in-
mate of the Home for the Aged and
Infirm, passed away yesterday morning.
Deceased was 76 years of age and a
native of Northumberland, England.
The funeral has been arranged to take
place today at 2 o'clock from the pa-
rsonage of St. Vincent's church, where
it will be conducted by Rev. J. P. West-
man.

Carries Customs Officer.—S. W. Ed-
wards is now acting as customs officer
on the steamer "James Bay." Since
the steamer was placed on the Victoria
and Sound route this has been found
necessary, so that all baggage for this
city may be examined and checked be-
fore the steamer arrives in the early
morning. This has been done in the
past, but passengers may not be disturbed
in sleeping hours.

"D. W. H." En Tour.—D. W. Hig-
gins left this morning for Toronto,
where he will confer with his publish-
ers regarding the forthcoming issue of
his book of reminiscences of the early
days of British Columbia. Mr. Hig-
gins has received the most flattering
and encouraging response to his venture
and it is not improbable that he will
arrange for simultaneous publication in
England.

Big Logging Engines.—Andrew Gray,
of the B. C. Marine Iron Works, has
just prepared for shipment two of the
largest logging engines ever turned out
in the province. They are destined for
the heavy timber districts around the
Nimnet lake, on the West Coast. The
engines for the machines were constructed
here, while the engines were built
on the American side. Attached is all
the gear necessary for the handling of
big stumps of lumber.

Galaxy of Beauty.—A recent issue of
the San Francisco Bulletin contains a
fine picture of Miss Maude Goodwin,
a daughter of Mrs. H. D. Helmecken.
The Bulletin is conducting a contest
to decide the most handsome woman in
California. The first prize is a diamond
engagement ring valued at \$500, while
second and third prizes are also very
valuable pieces of jewelry. The Bulletin
is publishing half tons of the society
ladies competing.

Strawberry Festival.—The following
ladies and gentlemen will give the mus-
ical and literary programme at First
Presbyterian church this evening at the
strawberry festival under the auspices
of the Ladies Aid Society of the church:
Mrs. Wm. Gresson, Miss Klara, Miss
Woodward, Miss Howell, Miss Iva
Henderson, ladies orchestra sextette, Mr.
Kinaird and J. G. Brown. The ladies
of the church can be depended on to
look after the wants of the inner man.

Flower Sunday.—Special preparations
are being made for the services in Cen-
tenial Methodist church next Sunday.
"Flower Sunday" has become an annual
event in that church and next Sunday
is the day chosen for working hard.
The floral committee are working hard
to beautify the church and this year prom-
ises to eclipse others. Special services
will mark the whole day. On Monday
evening the young people will give a
strawberry social on the lawn at the
residence of Mr. and Mrs. W. H. Bone,
Tapscott avenue.

A Pierce Assault.—An information has
been laid by Detective Collinson, well-
known member of Plumper's Pass, against
Bell Roper for assault. The case was
to have been heard today but the ac-
cused is alleged to be in bed, suffering
from the effects of the fight. From the
complaints made, it appears that he met
Roper in the California saloon on Friday
last and that Roper challenged him
to a fight. While Roper was attacking
complaints, three other men jumped
on him and beat him while Roper
held his arms from behind. Collinson
bears signs of a very aggravated assault,
being pretty badly used up.

Fleet at Ladysmith.—H. M. S. Gra-
ton, Shearwater, Flora and Egeria
reached Ladysmith on Monday after-
noon. The Flora put to sea again, but
the other two were anchored near the
mouth of the harbor.

A Small Fire.—At 5 o'clock yester-
day afternoon the fire brigade was sum-
moned to the old bedstead factory on
Government street, where a blaze on the
roof was in progress. It was extin-
guished without difficulty and but little
damage will result.

Temporary Stands.—At its special
session held yesterday afternoon the
city council decided to arrange tempo-
rary new quarters for the hackmen on
the streets pending the completion of
paving operations. The hackmen will
stand on Government street north of
Johnson, and the expressmen on Lang-
ley street.

V. Walken's Death.—Vivian Walk-
en, who died at the Jubilee Hospital
on Saturday, was the eldest son of Dr.
W. W. Walken and a nephew of Judge
Walken. He was only 25 years of age
and was married about a year and a
half ago to Miss Chapman, of Nanaimo.
He leaves, besides his widow, an infant
daughter. He was highly popular and
respected.

Found a Scow.—Mr. Harry Vollmers,
of Galiano Island, found a large scow
adrift in the Gulf on Sunday last and
towed it into his harbor on Galiano
Island. The scow had been loaded with
coal, and had been blown down the coast
wrecked most of the cargo, and there
was only about 20 cord left on her
when found. The owners can have her
by applying to Mr. Vollmer, Galiano
Island. The scow was found near the
sandheads.

Slough Creek Mines.—In a state-
ment issued by the board of directors
of the Slough Creek Mines, Limited, it
is mentioned that the developments
which have taken place in the com-
pany's property within the past few
months are of a very favorable charac-
ter. Some of the gravel showed results
at the rate of 1 oz. 12 oz. and 7 ozs.
of gold, respectively, to the cubic yard
of gravel, and at all points where gravel
has been encountered it has been found
highly auriferous.

Patent Report, Howard Britain,
patent attorney of Vancouver, sends the
following report, being an abstract
from the Official Gazette of the United
States patent office for the week end-
ing June 7th, 1904, listing the new
patents issued to citizens of the
United States; 2 to Austria-Hun-
gary, Canada, 12; Chile, 1; Denmark,
1; Great Britain, 19; France, 5; Ger-
many, 11; Isle of Man, 1; Italy, 4;
Mexico, 1; Natal, 1; New Zealand, 1;
Russia, 1; Sweden, 1; Switzerland, 1;
and Transvaal, South Africa, 1.

Off for Bisle. Private S. J. Perry,
of the Sixth Regiment, D. C. O. R.,
has left via the C. P. R. to be re-
called to his team for Bisle. The team
is to sail from Montreal on the 24th
inst. He will be the only representative
from British Columbia on this year's
team, as other men to whom places
were offered were unable to accept owing
to business engagements. This will be
Private Perry's second trip to Bisle, he
having been one of three representa-
tives from the Sixth Regiment on the
1902 team. He has also served with the
Royal Canadian Regiment in South Africa.

Choral Concert.—On Tuesday, July
17th, the Victoria Ladies' Choral So-
ciety will give their last concert of the
season. The works chosen for the per-
formance are Henry Smart's "King
Rene's Daughter," a cantata given, it
will be remembered, last year with
great success; Parker's "The Fisher,"
for soprano solo and chorus; Bangs's
"The Lord is My Shepherd," and other
part songs. Herbert Ritchie, who is
visiting the city prior to his prolonged
sojourn in Europe, will again delight all
music-loving Victorians by his magnifi-
cent violin playing, and several of the
best known singers of the city will also
take part in the concert.

Funeral Today. The remains of the
late John Fanning, ex-curator of the
provincial museum, will be interred this
afternoon, the funeral leaving the pa-
rsonage at 2 p.m. The funeral will be
held at 2 p.m. at the residence of the
deceased, 27 Blanchard street, at 2:30
o'clock and fifteen minutes later from
Christ Church Cathedral. The deceased
having been one of the oldest members
of the Natural History Society, the
services will be held at the request of its
president, John T. Walbran, has been asked
to attend the funeral in a body. One
of respect also for the late Mr. Fanning,
the museum, of which he had for many
years been curator, will be closed this
afternoon.

Tenders for Steamers.—The depart-
ment of public works at Ottawa is call-
ing for tenders, which will be received
up to July 14th next for the construc-
tion of two steamers for use on the
Fraser river. One is to be a steel tug
and the other a smugboat. Plans and
specifications for the two vessels may
be seen at the Victoria post office, Ac-
companied each tender must be sent
a cheque on some chartered bank pay-
able to the order of the minister of
public works, Ottawa. For the steel
tug and its tender, which is also to be
built, a cheque for \$3,500 must be for-
warded, and with the tender for the
smug boat \$3,000.

Moonlight Excursion.—The Ladies'
Aid Society of Emmanuel Baptist
church, intend holding a Moonlight Ex-
cursion on Monday next, 27th inst. The
excursion will leave the Victoria and Sid-
ney railway station at 7:30 p.m. to Sid-
ney, thence via the fine steamer "Victoria"
on an extended trip through the
beautiful and picturesque islands of the
Gulf. The excursion promises to be one
of the most interesting and enjoyable
events of the season, as the ladies of
the society are determined to leave no-
thing undone to make this occasion a thor-
ough and complete success from every
standpoint. Provision is also made by
the society for a full and ample supply
of refreshments, so that none need go
hungry.

Domestic Science.

The School of Do-
mestic Science at the Central school
grounds will hold their formal closing
exercises tomorrow afternoon. Parents
and friends of pupils are invited.

St. Ann's Academy.—An exhibit of
fancy work by the pupils of St. Ann's
Academy may now be viewed at the
parlors of the institution any afternoon
between 4 and 6 o'clock.

Masonic Grand Lodge.—The Masonic
Grand Lodge opens at Rossland to-
morrow. Rev. C. Benson Stuart, of Esqui-
malt, Grand Master of the Masons,
and Mr. R. E. Brett, of Victoria, Grand
Secretary, are in attendance.

Double Initiation.—At the regular
weekly meeting of Columbia Lodge, I.
O. O. F., this evening, two well-known
business men of the city will be in-
itiated into the mysteries of Odd Fellow-
ship. A good attendance is expected.
Visitors always welcome.

Permanent Sidewalks.—At yesterday
afternoon's special meeting of the city
council, City Engineer Topp presented
reports on the plan of laying permanent
sidewalks on Fort and Yates streets.
These were adopted and an early com-
mencement will be made on the work.

Dominion Day Picnic.—The Catholic
picnic to Saanichton on Dominion Day
promises to eclipse any excursions of
that nature. The select programme
holds such attractions as two baseball
games, horse and bicycling races and
numerous other sports. The tickets sell
like hot cakes, and no doubt the two
special trains as well as the regular
scheduled trains will be taxed to their
full capacity.

Campers Annoyed.—Campers at
Shawnigan lake are loud in complaint
against the presence of some evil-dis-
posed person in the little community
who resorts to stealing from the cabins.
Of late some horses and bicycles have
been reported, and the injured ones are
determined to see that the practice is
put a stop to. During the past two or
three years similar complaints have
had to be made.

New Freight Arrangement.—The C.
P. R. Northern British Columbia
steamer Danube when at Vancouver
loaded Oriental cargo, ex Tartar,
bound for the Orient, and destined
for Victoria and brought to Vancouver
by the C. P. R. trans-Pacific liners has
been shipped back to Victoria by regu-
lar freight steamer, but now that the
steamer Princess Victoria is engaged in
making time on the triangular port ser-
vice, she cannot handle such freight
and henceforth it will be brought to
Victoria once a week by C. P. R. steamers
returning from Northern British
Columbia ports.

Cannot Accept Invitation.—Sir Henri
Joly's private secretary has forwarded
the following letter to the Vancouver
Dominion Day celebration committee:
"Sir, I am a member of the British Co-
lumbia legion, and in reply to the letter
from the mayor and council and citizens'
committee for their courteous invitation
to attend the annual festivities of the
Dominion Day celebration at Vancou-
ver, and to express his sincere regret
that owing to the serious condition of
Lady Joly de Lotbiniere's health it will
not be possible for him to accept the
same."

Brynmor-Armstrong.—At New West-
minster on Monday a quiet wedding
took place at the residence of the gov-
ernor of the provincial gaol when Miss
Rose Armstrong, sister of Mr. W. G.
Armstrong, of the Victoria gaol, was
united in marriage to Mr. James
D. Brynmor, one of the attendants at
that institution and brother of Mr. G.
D. Brynmor, manager of the Bank of
Montreal in New Westminster. The
Rev. A. Stidolph performed the cere-
mony. The bride was attended by Miss
Brynmor and Mr. Robert Brynmor of
Cranbrook supported the groom. After
the ceremony a short reception was
held at the residence of the bride's
parents, and then the bride and groom
left for Victoria and the honeymoon
will be spent.

Theatrical Attractions.—John Cort,
manager of the Victoria theatre, the-
atrical circuit, has just returned to Seattle
on a trip East. He came home loaded
down with contracts for the best things
there are to get. "It will be the big-
gest year in the history of the theatre"
he said, "in the Northwest." He
said, "The list of bookings could scarce-
ly be improved upon, and patrons nat-
urally will feel that they are fortunate
in being able to see at home some of
the greatest actors and actresses now
traveling." Speaking of present the-
atrical business in New York Mr. Cort
said: "All really meritorious attractions
are playing to capacity business. I think
the best thing I have seen lately is
"The Yarn of Casul," one of the big
attractions I have booked. It is one of
the best things I ever saw."

Export of Hides.—On Saturday last
a consignor of the hides at the attempt-
ing to get an export entry for a number
of deer skins, was informed that it would,
according to Dominion statute, be il-
legal for him to do so, and that anyone
so doing was liable to a fine of \$100.
The consignor of the skins, under the
tariff act, The dealer said he was
quite unaware of the law in that
respect, and in referring the question
to Ottawa, Collector of Customs Low-
ell explained that it was evidently a
matter of not knowing, rather than in-
tentional violation of the law. Ac-
cordingly the hides, which were held
pending advice, were returned to the
owner on his promise not to export
them, and permission was given to
carry them to Ottawa. The dealer was
evidently laboring under the delusion
that such export of deer skins only
came within the purview of the new
Provincial Game Act which does not
come into effect before the 1st proximo.

Hotel Project
Up to the PeopleVoting on Amended Agreement
to Take Place on
July 7th.Prompt Action By Mayor—Full
Text of the By-
Law.

Mayor Barnard and his colleagues in the city council lost no time in putting the necessary legal machinery in operation to permit of work being started at the earliest possible date on the big C. P. R. tourist hotel, a special session being held yesterday afternoon at 4 o'clock when the necessary by-law passed and arrangements made for taking the judgment of the qualified ratepayers. Voting is to be held on July 7th, in the Market building, Cornmarket street. The proposed agreement is as follows:

1. The Corporation will, within one month from the final passing of the By-Law hereinafter mentioned in Section 2 hereof, grant and convey to the Company and the Company will accept when tendered by a good and sufficient deed in fee simple free from encumbrances all that piece of land described as follows:

Commencing at a point on the Easterly side of the extension of Government Street four hundred and forty feet from the corner of Belleville Street and Government Street; thence running Northerly along the Easterly side of Government Street to high water mark; thence along the high water mark boundaries of Lots 171, 215, 214, 213, 212 and 211 to the Southeasterly corner of Mr. Pendray's property on Lot 211; thence Northerly along the Easterly boundary of the said W. J. Pendray's property to the point where it intersects with the continuation of Douglas Street; thence along the Westerly street line of the proposed continuation of Douglas Street to the Northeasterly corner of the piece of land heretofore conveyed by the Corporation to the Company as hereinbefore mentioned; thence along the Northerly boundary of the said piece of land heretofore conveyed to the point of commencement of the extension of Douglas Street; and also such portion of said Lot 171 as shall not be used for the purpose aforesaid.

2. The Company will forthwith upon tender being made to them of the Conveyance mentioned in the preceding paragraph, exercise the said option with Mr. Pendray and purchase Lots 215, 214, 213, 212 and 211, the property of the said W. J. Pendray, and the Company will remove all objectionable structures from the said lots and build the said Hotel between Humboldt and Belleville Streets as aforesaid. The piece of land by this Agreement agreed to be conveyed by the Corporation to the Company shall for a period of fifty years from the date of this Agreement be used for the purposes of the said Hotel and the buildings appurtenant thereto.

3. The Corporation undertakes to cause a by-law to be passed to expropriate Lot 171, and the Company agrees to contribute towards the cost of such expropriation the sum of Twenty Thousand Dollars, which said sum shall be paid to the Corporation in cash upon the final determination of such arbitration or other proceedings as may be necessary to settle the value of the said Lot 171.

4. This Agreement shall not in any way interfere with or override or derogate from the provisions of the heretofore passed Agreement of the twenty-second day of September, 1903, and shall for all purposes except as herein mentioned be deemed a separate contract between the Corporation and the Company it being understood, however, that the immunity from taxation contained in clause seven of the said Agreement of 22nd September, 1903, shall extend to the land which the Corporation

has by this agreement agreed to convey to the Company, and also to any part of the said lots fronting on Humboldt Street, used from time to time by the Company for the purposes of the said Hotel, and that Hotel Avenue shall not be made as contemplated by the said Agreement.

5. This Agreement after the same has been duly executed by the Company, shall be embodied in a by-law having for its object the adoption of the same by the Corporation, and after the said by-law has received the assent of the ratepayers of the City of Victoria in accordance with the provisions of the "Municipal Clauses Act" the same shall be executed by the Corporation.

6. The Company shall make no claim for any damages caused to Lots 215, 214, 213 and 212 aforesaid by the filling in of James Bay Mud Flats.

The Canadian Pacific Railway Company.

(Seal of the C. P. R. Co.)

BANISH THE WRINKLES.

In Many Cases They Are Merely
Signs of the Ailments of Women.

A woman's face plainly indicates the state of her health. Wrinkles, which every woman dreads, are not necessarily a sign of age. Pale, faded, and prematurely aged appearance are the outward indication of those ailments that afflict women and from which they suffer in uncomplaining silence, rather than consult a doctor. In this condition Dr. Williams' Pink Pills are women's best friend. They actually make new, rich, red blood, and this blood acting upon the nerves and all the organs of the body, brings new health and happiness to weak, weary and despondent women. Mrs. John McKerr, "Dickens, N. W. B.," tells the benefit of other suffering women how she found new health through the use of Dr. Williams' Pink Pills. "For some years," says Mrs. McKerr, "I was greatly afflicted with the ailments that make the lives of so many of my sex miserable. The suffering I endured can only be understood by those who are similarly afflicted. I tried many medicines but found none that helped me until I came to the use of Dr. Williams' Pink Pills. These have actually made me feel like a new person, and the suffering I had endured almost continuously has passed away, and life is no longer the burden it once seemed. I think these Pills worth their weight in gold to all who suffer from female complaints or general prostration."

We ask every suffering woman to give Dr. Williams' Pink Pills a fair trial. They will not disappoint you, and the benefit they will give is not for an hour or a day—it is permanent. You can get these pills from any dealer in medicine or by mail from the Dr. Williams' Medicine Co., Brockville, Ont., at 20 cents a box or six boxes for \$2.50. See that the full name, "Dr. Williams' Pink Pills for Pale People," is on the wrapper around every box.

Arranged Excursion. The Fraternal Order of Eagles has made arrangements to hold a grand excursion to Ladysmith on Dominion Day. Special trains will leave the E. & N. depot at 9 a.m. and 12:30 p.m. The fare for the round trip is \$1.25. The fare for children under 12, fifty cents.

Painters' Union. At a meeting of local union No. 5, Brotherhood of Painters and Decorators of America, held last evening, the following officers were elected: G. Cayen, president; F. Henskie, vice-president; J. Crook, treasurer; R. Ryan, secretary; J. Holson, financial secretary; C. Brown, warden; E. Gillson, conductor; auditors, W. Clark, E. Gilligan, A. McFarlin; sick committee, Messrs. Ottaway, Rivers, Halpinny, Willard and Carmichael; delegates, Trades and Labor Council, Messrs. Ryan, Gilligan and Henskie.

PREPARATIONS FOR
THE EXHIBITIONSub committees Appointed For
Various Sports and
Attractions.

A meeting of the sports and attractions committee of the B. C. Agricultural Society was held in the City hall last evening. Mayor Barnard presided and there were present the Rev. W. W. Bolton and Messrs. D. A. Upper, Geo. Shade, H. Ross, A. Wade, H. B. Thompson, L. Tait, W. C. Moresby and S. Yates.

Considerable discussion took place concerning the various games and attractions which it is proposed to have during exhibition week. A lacrosse match between Victoria and Vancouver probably will be one of the attractions for Saturday, and this matter was left to Mr. Bolton, who will get information as to terms, etc.

Football games also will be played. A team from Nanaimo or Ladysmith, both, very likely will be invited to contest with local aggregations.

If boxing contests materialize this year they will be held in a separate tent and not in the main building, as on the last occasion, when some of the gentler sex did not enjoy this form of sport. The difficulty is that the V. B. C. cup and the trophies in the other classes are held by men who, it is feared, will not be challenged, so there may be no competition. This matter was left in the hands of the boxing club.

An attraction which may be arranged for the disciples of Isaac Walton is a fly-casting contest. The idea is to construct a shallow pond, into which the fishermen will cast their flies.

The mayor will inquire into the possibility of a Chinese dragon procession, and, on the suggestion of Mr. Tait, a children's day is likely to be a feature of the week, sports being provided for the young people.

The following sub-committees were appointed: Fly-casting—Thos. Fox, J. Musgrave and W. H. Adams. Miners' Drilling Contest—Col. Prior, Hon. Edward Dewdney, R. Mason and B. C. Musgrave.

Horse and Vehicle Committee—H. Ross (chairman), H. D. Helmecken, J. H. Greer, A. Wade, J. W. Morris, Jas. Bryce, Tom Horne, Jas. Heaney and B. C. Musgrave.

Games Committee—Rev. W. W. Bolton, Thos. Hooper, H. A. Goward and W. C. Moresby.

Boxing Box—W. W. Bolton, Geo. Shade and G. E. Morphy.

Children's Day—L. Tate, Geo. Jay and Mr. Gillies.

A somewhat remarkable communication was received from Mr. Sanguzawa, a merchant of Yokohama and the owner of a tea house, in reply to an inquiry regarding the importation of geishas as an attraction. In the course of his letter Mr. Sanguzawa said:

"It will be something awfully expensive and ought to be prepaid. Nice-looking and modest girls, which you want, do not easily accept to go abroad. Anyhow, I will go to the matter carefully."

There are not likely to be any geishas at the exhibition.

Mary ate a little peach. One day just after dinner. It was not very ripe, and so. The next day she was thinner.

It seems to me, that little girl was mad as any butter. For if she'd used some nice Fruit Sugar it would have made her fatter.

Webster's Unabridged Dictionary \$7.50 at Hibben & Co's.

SPORTING NEWS.

BASEBALL.

Puget Sound League.
On Sunday Everett defeated Bellingham 3 to 1 and Sedro-Woolley got the better of Seattle 6 to 3. This makes the standing of the clubs as follows:

	Won.	Lost.	Pct.
Victoria	1	0	1.000
Sedro-Woolley	1	0	1.000
Everett	1	1	.500
Seattle	0	2	.000
Bellingham	0	2	.000

On Saturday Everett will play here and the local team will need to be on their very best behaviour, as the visitors are a very strong and clever team. If Victoria plays as good an up-hill game as on Saturday last there need not be much fear as to the result. Up to date the local team has had, as far as winning matches go, a most successful season, but the attendance at the matches, considering the merits of the players, leaves much to be desired. It is to be hoped that more interest will be shown especially in view of the fact that the games from now on will be league matches, and hence far more interesting than ordinary exhibition games.

Puget Sound League.
On Monday afternoon the Seattle team defeated Los Angeles at Seattle by 13 to 0. Shields was in the box for Seattle and had the Angels guessing all the time. Once, and only once, and then in the ninth, did any of the visiting batsmen get to third base. The Angels only got one hit, Toman, the short stop, being the lucky Yankee to land again at Port-Land Tacoma.

Yesterday afternoon San Francisco opened for a week's games at Seattle. Standing of the Clubs.

	Won.	Lost.	Pct.
Tacoma	46	35	.568

Brayings of an Ass.

Vancouver last year had a professional nine, all the members of which were imported from the Sound. This year Vancouver hasn't any nine of any account and the sporting man on the Province is mad that Victoria should have a good team. In a column appropriately headed "Teams of Sport Gathered in an Old Way," he says: "The Victoria papers have strange ideas of amateurism. They write about Victoria's strictly amateur baseball team. Amateur, as used with regard to the nine, is a misnomer. The nine is not for Victoria. It is good. The mere dropping of Emerson and one or two other professionals who cost too much to carry does not reinstate the others, who are still playing against such 'amateurs' as Frank Newman, Seattle team, McLeod, McMillan, Two Fathers, and the rest, are as much amateurs as Victoria's baseball players."

LACROSSE.

Centrals vs. James Bays.
The Centrals and the James Bays inter-mediate will play a return match tomorrow evening at the Caledonia grounds, play to commence at 7 o'clock. The game played a short time ago between these teams resulted in a win for the Centrals and was a very good exhibition of lacrosse. Since then both teams have been practicing diligently, and a very close and exciting contest is anticipated.

There was quite a crowd at the Caledonia grounds last evening to witness the game between employees of Spencer's Arcade and the Carnegie Library. The proceeds of the game, which amounted to a fair sum, are to go to the Protestant Orphanage. After an excellent contest the Arcade players were the victors by 6 goals to 3.

The New Westminster Columbian hoops it up over the victory of the intermediate team over the Vancouver intermediates at Brockton point on Saturday last. The score was 9 to 4, and the Columbian says that the Terminal City twelve had seven members of Vancouver's 1904 senior team. The standing of the intermediates now is:

	W.	L.	T.
Westminster	12	0	2
Vancouver	1	2	1
Nanaimo	0	1	3

PERSONALS.

Mrs. A. G. Horne, of Nanaimo, is in the city, spending a few days with her daughter, Mrs. Fred Brown, Victoria West. Mrs. Horne is one among the oldest inhabitants of British Columbia, coming here with her husband in 1857 by the S. S. Hudson's Bay Princess round the Horn. After many years services with the Hudson's Bay Company as factor of Fort Simpson, he went into business for himself at Nanaimo, where he died about two years ago. Mrs. Horne is quite stout and enjoys the best of health yet.

C. E. Gooding, manager of Yukon telegraphs at Ashcroft, and family are guests at the Balmoral.

Jelly Moulds. We invite you to inspect our assortment of English Jelly and Moulding Machines. All sizes and prices. R. A. Brown & Co., 80 Doug-las street.

We eat too fast, we exercise too little, we overwork our nerves. The stomach and bowels get clogged. (Biliousness.) The liver is upset. (Biliousness.) And attending these two simple ailments come all kinds of diseases and complications.

Laying Long Cable.—The United States government cable ship Burnside, after installing a new cable machine and taking on board 500 miles of the Alaskan cable, representing about 1,500 tons, started on her northern journey at 3 o'clock yesterday morning from Seattle. After picking up the buoyed end of the Junction cable, which is located about 130 miles this side of Sitka, the Burnside will proceed toward Cape Flattery, again anchor, and end somewhere off Vancouver. A. and. The work of paying out the cable is carried on at the rate of about five miles per hour, or 120 miles a day, the crew working day and night. In rounding Vancouver Island the cable will lead in 1,000 fathoms, or nearly 10,000 feet of water, this being the greatest depth encountered, the average in Alaskan waters being below 1,000 fathoms. Upon the completion of the stretch between Sitka and Seattle, which will take about two weeks, the Burnside will return to Seattle and take on the 650 miles for the Valdez-Sitka division, which is on its way from New York by rail.

A LIBRARY CONCERT.

To Be Held at North Ward School Tomorrow Evening.

Tomorrow (Thursday), June 23, evening the pupils of the North Ward school, aided by Prof. Haynes' orchestra, will render the following programme:

The teachers, aided by the pupils, have taken great pains to decorate and adorn the assembly hall of the school building in expectation of having a large audience to assist in the good work of securing a much-needed library for the benefit of the pupils.

Everybody attending will be sure of listening to an excellent programme of singing, recitation, and drama. The entrance will be by the north entrance, which will be well lighted.

The chairman of the trustee board, Mr. Jay has kindly consented to take the chair. Concert will begin at 8 o'clock sharp.

The following is the programme:

Orchestra, chairman's address; motion song; recitation by a little boy; rival speakers, by G. Gibson and A. McKenzie; recitation by a little girl; fan-dance by 18 girls; duet by George and Ernest Petch; dumb-bell drill, boys; motion song; dialogue, "All for Good Order"; duet by Hilda and Ann Gilchrist; Intermission. Orchestra song by girls; duet by Edna and Maude Sears; tableau, "Unwilling to School"; solo, Miss Colquhoun; recitation, Lena Blake; solo, Mr. Waddington; club singing; gymnastic tableaux.

COLD TREATMENT.

George Ade, at a recent banquet, was asked to speak on success. "I suppose that failure is more familiar than success to all of us," he said. "We work away. Four things fail. The first, the thing we want. The second, the thing we have the most failures, but then they have the most successes, too.

One of my earliest failures was a melodrama that I traveled all the way from Chicago to New York to sell to a manager. This was in my youth, when I had confidence in myself. The manager returned my melodrama. He said he didn't care for it.

"I pointed out the merits in it which he had overlooked. I proved that he would make a great mistake if he should not accept this work. But he shook his head.

"Can't you use it at all? I asked desperately.

"Well," said he, "I might grind it up and use it for a snow-storm."

WHAT THE COLD DOES.

The excessively cold season at Quebec has had a curious effect upon the salt water eels. It is their custom in winter to bury themselves in the sand or mud below high water mark and there hibernate.

This winter the frost has been so keen for weeks at a time that the surface of the water has become a sheet of ice directly the water ebbed away. Probably this has had the effect of partially depriving the buried eels of air, and the fear of death by asphyxiation has sent them scurrying out into the open, where they meet with immediate paralysis from the cold.

The appearance of the beach on some cold mornings has been a remarkable sight. Thousands of eels from thirty to seventy inches in length, each one about as brittle as an icicle and stretched out as straight as a stick, lie about or stand upright in the sand for a good third of their length.

Carts and wheelbarrows, as well as boats, have been filled day after day, and the available markets for fresh eels there could not get any little streams of life kept in motion in the interior of their bodies by ever so slight a circulation.—New York Sun.

For it is certain that the eels are not really dead. The returning tide bears them on its surface at first, as though they were lifeless, but after a few minutes they wriggle about a little, and soon they dive below, slowly and carefully, but very much alive. The fishermen usually make things certain by clapping off the heads of their captured fish before they throw them out.

Apparently no one has ever taken the trouble of deciding whether the fish were frozen through and through, and that there could not be any little streams of life kept in motion in the interior of their bodies by ever so slight a circulation.—New York Sun.

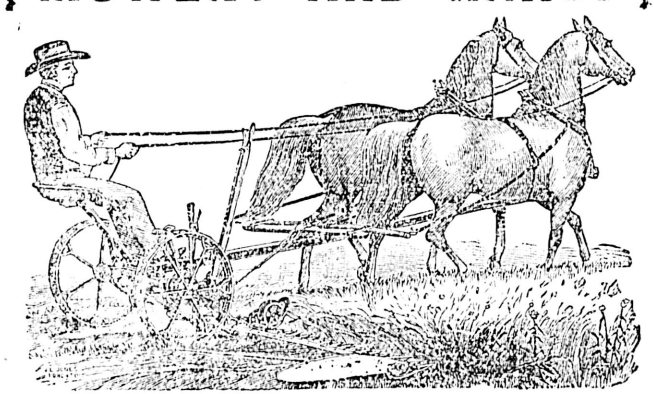

Two in One
SHOE POLISH

First came the old fashioned liquid polish, that blacked shoes without shining them. The bottle-and-box combination was an improvement, but meant too much hard work.

"2 in 1" is the perfection of shoe polishes. It's a Paste that embraces the good points of all other polishes, with none of their faults. One application—one rubbing—and the shoes are shined. It's made of pure oils, that preserve the leather. Contains no acids or turpentine.

Schlitz Beer Is Just This

Barley—selected by a partner in our concern—from the best barley that grows. And we malt it ourselves.

Hops—brought in large part from Bohemia—selected by our buyers from the finest hops in the world.

Water—from six artesian wells bored 1400 feet to rock.

Just a food and a tonic—brewed with the extreme of cleanliness—cooled and filtered air—sterilized after it is sealed.

Schlitz beer is pure, because our process is cleanly, and because the beer is filtered, then Pasteurized.

It does not ferment on the stomach, because it is aged—aged for months in refrigerating rooms before it is marketed.

It is a health drink without germs in it. It gives you beer without biliousness. Ask for the brewery bottling.

The Beer That Made Milwaukee Famous.

Small Properties

Twenty-five or more properties, ranging from 2 to 25 acres, For Sale, all within five miles of the city; some complete with cottage, buildings, orchard, etc.; others choice pieces ready for starting homes. These properties will be shown without expense to buyers.

Chinese Murder Case Reopened

Full Court Orders a New Trial of Men Under Sentence of Death.

Decision is Due to Trial Judge's Failure to Define Degrees of Crime.

Wong On and Wong Gow, who are in the Provincial gaol under sentence of death for the murder of the Chinese theatre manager, will have another chance for their lives, a new trial having been ordered by the Full court yesterday.

The main facts of this case are still fresh in the public memory and do not need recapitulation. The accused were tried by Mr. Justice Irving and a jury and were found guilty of murder and sentenced to death.

The appeal for a new trial was made on various grounds, but principally on a point reserved by the trial judge and on another that the judge had failed in his direction to the jury to point out to them the definition of the crimes of murder and manslaughter, which omission it was claimed, might have prevented the accused from being found guilty of the lesser offence. The point reserved by Mr. Justice Irving was the inadmissibility of evidence for the Crown in rebuttal when the new evidence partly contradicted that of the crown's previous witnesses. This evidence affected the alibi sought to be set up by the accused, and it was claimed that this influenced the jury in the wrong direction.

The court was composed of the chief justice, Mr. Justice Drake and Mr. Justice Duff. Mr. W. J. Taylor, K. C., appeared for the appellants and Mr. R. E. K. C. for the Crown.

After hearing a portion of Mr. Taylor's argument on the point of the omission in the trial judge's direction to the jury, the court requested Mr. R. E. K. C. to reply to this. Mr. R. E. K. C. claimed that, in the first place, a judge was not bound to define the crime of which an accused person was accused, as that could be left to the jury to decide on the evidence, and secondly that in this particular case no evidence had been produced on which manslaughter could be predicated, and that the jury had to find the accused innocent or guilty of murder.

The court held that on the first point no appeal could be allowed as the Crown had the right to call fresh evidence in rebuttal even though that evidence might partly contradict the prior evidence. On the second point the court unanimously agreed that the trial judge should have defined the crimes of murder and manslaughter to the jury.

The sentence of death on Wong On and Wong Gow, accordingly was quashed and the prisoners remanded for a new trial.

THE GRAND THEATRE.

Unusually Strong Programme for This Week.

Every feature on the programme with which the Grand Theatre opened the week last night is interesting and enjoyable, and from the time Mr. Bernard Williams begins his act with clean, clever comedy, bright monologue and wonderful flight of hand work, right through to the end of the bill, there is not a dull moment. The theatre was crowded as usual and the liberal applause and repeated encores it was clearly to be seen that another highly successful week is to be added to the Grand's record of phenomenal business since its opening. The Linden Sisters have some pleasing duets, blending whistling and singing in an unusual, but attractive and entertaining manner. Miss Fanny Donovan possesses a powerful and pleasing voice

Convention of the King's Daughters

Proceedings at the Fourth Annual Session Held in Town of Duncan.

Interesting Address and Reports Tell of Good Work Accomplished.

The fourth annual convention of the International Order of King's Daughters and Sons, was held in Duncan, B. C., on the 18th and 19th of the month, and was very well attended by friends and members. Twenty-one delegates were met at the train by the reception committee, and taken to the Agricultural hall, where the convention was held. At 2 p. m. the convention was called to order, Mrs. Shaw, provincial secretary, in the chair. After a hymn and prayers, read by Rev. Mr. Dunlop, the following address of welcome was read by Mrs. Holmes:

ADDRESS OF WELCOME.

We, the members of the "Scattered" and "Looking Out" Circles of the King's Daughters, have great pleasure in welcoming you to our district, and to the fourth convention of the British Columbia branch of the International Order of King's Daughters and Sons. I can assure you, we feel greatly honored that our little town has been selected for the meeting of the convention this year, and we trust our visit may be a pleasant one in every respect, and that our meeting together may be of mutual benefit, strengthening each other's hands in the work dear to us all. As doubtless most of you know, Cowichan is the birthplace of the order in British Columbia. It was started by our dear leader, Mrs. Maitland-Douglass, in December, 1887; but it was not until the fall of 1890 that our first meeting was held, and four only of the original ten members remain in the district.

Surely, when we look back to this small beginning, we must feel that our Heavenly Father has blessed the work, and if the King's Daughters are true to the tenets of the order, we shall see, year by year, the growth of the order. When I say "true to the tenets of the order," I mean more especially to the first principles, namely the "deepening of the spiritual life." I fear this is sometimes lost sight of, and we shall see, year by year, the growth of the order. When I say "true to the tenets of the order," I mean more especially to the first principles, namely the "deepening of the spiritual life." I fear this is sometimes lost sight of, and we shall see, year by year, the growth of the order.

The spiritual life must come first. The other will follow as a matter of course. The work of Christ we have in our hearts, the closer will we be drawn to our fellow creatures and their needs. Let us remember above everything else that we are a religious society, and we shall see, year by year, the growth of the order. When I say "true to the tenets of the order," I mean more especially to the first principles, namely the "deepening of the spiritual life." I fear this is sometimes lost sight of, and we shall see, year by year, the growth of the order.

NEWSPAPERS' TROUBLES.

Suits and Counter Suits in Connection With Vancouver Ledger.

Writes for a suit and counter-suit in connection with the Vancouver Ledger Printing and Publishing Company have been issued from the Supreme court within the past few days. Mr. Frank L. Reynolds and Miss Ethel L. Reynolds, the son and daughter respectively of Dr. F. S. Reynolds, the president and manager of the Ledger Company, have issued writs against the company claiming wages and other amounts aggregating nearly \$2,000. On the other hand Mr. Thomas Wilson, a shareholder in the company, has issued writs asking for an order directing the delivery up for cancellation of the ten thousand shares issued in pursuance of the aforesaid agreement. It further asks for an injunction restraining the shareholders of the company from meeting to give ratification to the said agreement, and restraining the defendant, F. S. Reynolds, from voting at a meeting of the stockholders in respect of the shares held by him. The injunction asked for was granted, but the other matters are held in abeyance.

OF USE EVERY DAY.

Once you become acquainted with the merits of Dr. Chase's Ointment and the scores of ways in which it is useful in every home, you would not think of being without it. Eczema, salt rheum, scald head, tetter, chaffing, chilblains, burns, scalds and every form of skin irritation and eruption soon yield to its extraordinary soothing, healing influence.

At a Russian marriage the bride's expected to dance with the men one after another until she drops with sheer fatigue. It is a matter of pride with her to keep going so long as possible, and it is not unusual to find a bride dancing daily for three days and nights of vigorous frolic.

A character which combines the love of enjoyment with the love of duty and the ability to perform it is the one whose unfolding gives the greatest promise of perfection.

CITIZENS PROPOSE TWO IMPROVEMENTS

To Executive of the Tourist Association—Mr. Cuthbert Off For a Trip.

Herbert Cuthbert, secretary of the Tourist Association, left last evening on a month's or six weeks' trip in the interests of the city. He will travel through Montana, Idaho, Eastern Washington and the Canadian Northwest.

An executive meeting of the association was held yesterday afternoon, when considerable business was transacted. Of the communications received one of especial interest was from Mr. George Phillips regarding his proposal that the water of the Gorge should be dammed at the Gorge bridge and so raised on the Arm. This is a proposal of considerable interest and by no means impossible to carry out. It was considered, however, very important, and was accordingly held over for further consideration.

Dr. Milne wrote about his suggestion to the city council, that the road along the coast should be removed from behind the cemetery to the seaside, and asked the association to endorse this. Although the members of the executive were not prepared to act at once in the matter, they seemed to be very much in favor of this proposal and it will be further considered at the next meeting.

A letter was received from a gentleman of Sussex, Eng., stating that the author had received a copy of one of the association's books, and was desirous of purchasing a farm in the vicinity of Victoria, and asking for information. This will be replied to, and a copy of the "armature" of the letter in which a great deal of valuable information is to be published, will be forwarded to this correspondent.

A gentleman in Seattle who is much interested in Victoria, wrote, very kindly, a letter to the association, and one of the booklets and his offer was accepted with thanks.

The executive passed a vote of thanks to the Seattle Post-Intelligencer for the prominence given to the association's work in their newspaper, and an appreciative description of Victoria from a tourist standpoint. The executive very much appreciated this evidence of good feeling towards the city.

The association has forwarded some handsome photographic enlargements of scenes of the city and vicinity to the Agent-General for British Columbia, to adorn the walls of his London office.

A new album is about to be issued by the association. This is a very handsome book containing a number of illustrations of Victoria and the surrounding districts. It is bound in leather. The pictures are by Fleming and are of a high class. The book is a most useful and attractive medium for advertising the place. Among the illustrations are two fine views of the suburbs of Victoria, taken from Mt. Tolmie.

School prizes in great variety at Hibben's.

Fresh Island Eggs, 25c.; C. & B. Picken's, any variety, 30c.; bottle: Sticks' English Pickles, 20c.; bottle; peas, corn or beans, 10c. tin, at Robinson's Cash Store, 89 Douglas street. Phone 1010.

Going in for an Ice Cream Freezer this year? We carry an immense stock of Shepherd's world famous "Lightning" Freezer. Easy runners, quick freezers, economical, convenient and practical, from \$2.75 each. Weller Bros., Government street.

Keep your fruit well sealed. Rubber Fruit Jar Rings, 5c., 10c., per dozen. Pure Red Rubber Rings, 25c. per dozen, at Weller Bros., Government street, Victoria, B. C.
